FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

To the Board of Commissioners,
Mid-City Security District,
New Orleans, Louisiana.

Opinions

We have audited the accompanying financial statements of the governmental activities of the Mid-City Security District (the "District"), as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities of the District as of December 31, 2021, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District, ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 5 through 10, and the required supplementary information on pages 30 and 31, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operations, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements as a whole. The accompanying supplementary information, on page 32, is presented for purposes of additional analysis and is required by Louisiana Revised Statute 24:513 (A)(3), and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. This information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 15, 2022, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Mid-City Security District
New Orleans, Louisiana

December 31, 2021

The Management's Discussion and Analysis (MD&A) of the Mid-City Security District (the "District"), financial performance presents a narrative overview and analysis of the District's financial activities as of and for the year ended December 31, 2021. It identifies changes in the District's overall financial position and results of operations and assists the user in determining whether the financial position has improved or deteriorated as a result of the year's operations. It also identifies any significant variations from the original budget amounts and includes any currently known reasons for those variations that are expected to have a significant effect on future services or liquidity; and identifies individual issues or concerns. The MD&A focuses on the current year's activities, resulting changes, and currently known facts.

The information contained within this MD&A should be considered only as part of a greater whole. The readers of the MD&A should read and evaluate all sections of this report, including the notes to financial statements and required supplemental information section (RSI) that are provided in addition to this MD&A.

OVERVIEW OF THE FINANCIAL STATEMENTS

This MD&A is intended to serve as an introduction to the District's basic financial statements. The District's financial report consists of four parts: (1) MD&A (this section), (2) basic financial statements, (3) required supplementary information, and (4) special reports by certified public accountants and management.

The basic financial statements include two kinds of statements that present different views of the District:

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private sector business. Under this format, all governmental activities are consolidated into columns which add to a total for the governmental entity. For the District, only governmental activities are included in the presentation. Accordingly, there is no "totals" column in the presentation.

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

Government-Wide Financial Statements (Continued)

- a. The Statement of Net Position presents information on all of the District's assets and liabilities using the accrual basis of accounting, in a manner similar to the accounting used by private business enterprises. The difference between the assets and liabilities is reported as the net position. Over time, increases or decreases in the net position (and changes in the components of net position) may serve as a useful indicator of whether the financial position of the District is improving or weakening.
- b. The Statement of Activities presents information showing how the District's net position changed during the year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. The format for the Statement of Activities presents the expenses for each function reduced by the program revenues directly related to the program to determine net program expenses.

Fund Financial Statements

A fund is a grouping of related accounts that are used to maintain control over resources which have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related and legal requirements. The District uses one categories of funds to account for financial transactions: governmental funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains one individual governmental fund (the "General Fund"). Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balance for the General Fund. The District adopts an annual appropriated budget for its General Fund. A budgetary comparison statement, page 30, and the note to budgetary reporting have been provided for the General Fund to demonstrate compliance with this budget. The basic governmental fund financial statements can be found on pages 11 through 16 of this report.

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)**Notes to the Financial Statements**

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found starting on page 17 of this report.

FINANCIAL HIGHLIGHTS

The financial statements provide details of the current year operations summarized as follows:

- The governmental activities reported total ending fund balance of \$322,240. This compares to the prior year ending fund balance of \$251,555 showing an increase of \$70,685 during the current year.
- During the year, the District generated fees and other revenues of \$946,907 that were \$70,685 more than the \$876,222 of expenses.
- Program revenues decreased by \$11,929 or approximately 1.24% from the prior year.
- Total expenses decreased by \$113,066 or approximately 11.43% from the prior year.

Statement of Net Position and Statement of Activities

Presented below are condensed Statements of Net Position and Statements of Activities for the District. The condensed format allows the reader to view the overall financial position of the District. Explanations of the components of the statements are included immediately following the statements.

Condensed Statements of Net Position

	Total Governmental Activities		Increase (Decrease)	Percentage Change

Parcel fees decreased by \$10,470 in 2021 as compared to 2020. Expenses for the District decreased by \$113,066 in 2021 as compared to 2020. The expenses were lower in 2021 mainly due to a decrease in patrol and security services.

The District's net position increased by \$70,685 as a result of this year's operations. The balance in net position represents the accumulated results of all past years' operations. The District's total revenues for the year were \$946,907 and all revenues were charges for services and interest income. The total cost of all programs and services was \$876,222 with no new programs added this year.

Financial Analysis of Governmental Funds

The District maintains only one "governmental fund" - the General Fund. The General Fund Balance Sheet is on page 13 of this report and the Statement of Governmental Fund Revenues, Expenditures, and Changes in Fund Balance are on page 15 of this report.

Under the modified-accrual basis for fund financial statements, the emphasis is on accounting for current financial resources of the District. The analysis in this section includes a discussion of the General Fund financial statements.

FINANCIAL HIGHLIGHTS (Continued)**Financial Analysis of Governmental Funds (Continued)**

As of December 31, 2021, the General Fund reported total fund balance of \$322,240, an increase of \$70,685 from the prior year total fund balance. This increase is due to revenues of \$946,907 exceeding expenditures of \$876,222. The District is focused on reducing expenditures in order to maintain a positive fund balance. The District tries to maintain spending levels at or below revenues.

Analysis of the General Fund Budget

The budget for the General Fund, which was not amended during 2021, was as follows:

	<u>Original and Final Budget</u>	<u>Increase (Decrease)</u>	<u>Percentage Change</u>
Revenues:			
Program revenues	\$ 1,014,500	\$ -	0.00%
Interest income	<u>4,000</u>	<u>-</u>	0.00%
Total revenues	1,018,500	-	0.00%
Expenditures:			
Patrol and security services	979,000	-	0.00%
Insurance	21,000	-	0.00%
Professional fees	15,500	-	0.00%
Newsletter	12,000	-	0.00%
City collection fee	1,000	-	0.00%

Excess of expenditures over revenues	(20,000)	-	
Beginning fund balance	<u>282,007</u>	<u>-</u>	0.00%
Ending fund balance	<u>\$ 262,007</u>	<u>\$ -</u>	0.00%

When the budget for the year ended December 31, 2021 was originally prepared, revenues and expenditures were reflected in a conservative manner. The budget was not amended in 2021.

FINANCIAL HIGHLIGHTS (Continued)

Economic Factors and Next Year's Budget

The District must consider many variables when budgeting for the coming fiscal year. Included in these factors are changing laws and regulations, economic circumstances, and historical trends.

A summary of the current budget for the year ending December 31, 2022 follows:

Condensed Budget

Revenue	\$ 1,017,500
Expenditures:	
Operations	<u>1,066,150</u>
Excess of expenditures over revenues	(48,650)
Beginning fund balance	<u>251,555</u>
Ending fund balance	<u>\$ 202,905</u>

The District's major source of funding is parcel fees. For the year ending December 31, 2022, it is anticipated that parcel fees will slightly increase. The District maintains a conservative estimate of revenues. Parcel revenue is solely determined by the taxes collected from Mid-City residents during the year.

The District has budgeted expenditures to remain consistent with estimated revenues.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Mid-City Security District's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Ms. Mary Moises, Mid-City Security District, P.O. NOTES TO FINANCIAL STATEMENTS**Mid-City Security District**

New Orleans, Louisiana

December 31, 2021

Note 1 - NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Mid-City Security District (the "District") was created as a public body by Acts of the Louisiana Legislature, 2008, No. 925, La. R.S. 33:9091.14 to aid in crime prevention and to add to the security of the District residences by providing for an increase in the presence of law enforcement personnel in the District. The Board of Commissioners is constituted by five appointed members. The Mid-City Neighborhood Organization shall appoint four members, one of whom shall be from the City Park Triangle. The Parkview Neighborhood Association shall appoint one member. All members appointed shall be qualified voters and residents of the District. Board members appointed serve three-year terms. Board members are not compensated or reimbursed for expenses.

The District services all parcels located in the geographic area it serves. The District has no paid employees and contracts with the City of New Orleans for on-duty police officers for patrolling.

The governing authority of the City of New Orleans is authorized to impose and collect a parcel fee within the District. For these services, the City of New Orleans imposes a 1% collection fee based on the gross amount of the parcel fee collected. The amount of the parcel fee is determined by an adopted resolution of the Board of Commissioners of the District. The fee shall be a flat fee per improved parcel of land not to exceed \$250 per year for each improved residential parcel, not to exceed \$375 for each improved commercial parcel, and not to exceed \$150 for each improved residential parcel subject to a special assessment level. The enabling legislation authorizing the fee expires on December 31, 2024, but can be extended by an act of the Legislature.

a. Basis of Presentation

The District's basic financial statements consist of the government-wide statements on all activities of the District and the governmental fund financial statements.

Note 1 - NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

a. Basis of Presentation (Continued)

Government-Wide Financial Statements

The government-wide financial statements include the Statement of Net Position and the Statement of Activities for all activities of the District. The government-wide presentation focuses primarily on the sustainability of the District as an entity and the change in aggregate financial position resulting from the activities for the fiscal period. Governmental activities generally are financed through parcel fees, and interest income.

Fund Financial Statements

The fund financial statements are very similar to the traditional government fund statements as presented by governments prior to the issuance of GASB Statement No. 34. Emphasis is now on the major funds. The daily accounts and operations of the District continue to be organized on the basis of a fund and account groups, each of which is considered a separate accounting entity. The operations of the fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, equity, revenues, and expenditures. Government resources are allocated to and accounted for in the fund based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The following are the governmental funds of the District:

General Fund

The General Fund, as provided by Louisiana Revised Statute (L.R.S.) 13:781, is the principal fund of the District and accounts for and reports the operations of the District's office. The various fees and charges due to the District's office are accounted for in this fund. General operating expenditures are paid from this fund. The General Fund is always considered a major fund.

b. Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe which transactions are recorded within the various financial statements. Basis of accounting refers to when transactions are recorded regardless of the measurement focus applied.

Note 1 - NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

b. Measurement Focus and Basis of Accounting (Continued)

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the reporting government as a whole. These statements include all the financial activities of the District.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues are derived directly from parcel fees and reduce the cost of the function to be financed from general revenues.

Fund Financial Statements

All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (revenues and other financing sources) and decreases (expenditures and other uses) in net current assets. Governmental funds are maintained on the modified accrual basis of accounting.

Revenues

Governmental fund revenues resulting from exchange transactions are recognized in the fiscal year in which the exchange takes place and meets the government's availability criteria (susceptible to accrual). Available means that the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. Miscellaneous revenues are recorded as revenues when received in cash by the District because they are generally not measurable until actually received.

Note 1 - NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

b. Measurement Focus and Basis of Accounting (Continued)

Revenues (Continued)

Interest income on cash balances is recorded when the income is available.

Expenditures

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. The District does not allocate indirect costs.

c. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

d. Operating Budgetary Data

As required by the Louisiana Revised Statutes 39:1303, the District adopted a budget for its General Fund. The budgetary practices include public notice of the proposed budget, public inspection of the proposed budget, and public hearings of the budget prior to adoption. The District did not amend its budget during 2021. All budgeted amounts which are not expended or obligated through contracts, lapse at year end.

e. Cash and Cash Equivalents

Cash includes amounts in demand deposits, interest-bearing demand deposits, and time deposits. Cash equivalents include amounts in time deposits and those investments with original maturities of 90 days or less. Under state law, the District may deposit funds in demand deposits, interest-bearing demand deposits, or time deposits with state banks organized under Louisiana law or any other state of the United States, or under the laws of the United States.

Note 1 - NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

f. Receivables

The financial statements of the District contain no allowance for doubtful receivables. Uncollectible receivables, including amounts due from other government units, are charged directly against earnings when they are determined to be uncollectible. Management is of the opinion that there will be no material losses on the collection of receivables.

g. Prepaid Expenses

Payments made to vendors that will benefit periods beyond December 31, 2021 are recorded as prepaid expenditures. These amounts are equally offset by a fund balance classification of nonspendable which indicates that they do not constitute available spendable resources even though they are a component of net current assets. Prepaid expenses as of December 31, 2021 were \$14,928.

h. Fund Equity

Government-Wide Statements

Equity is classified as net position and displayed in three components:

- a. Invested in capital assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation.
- b. Restricted net position - Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributions or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position - This component of net position reports net position that does not meet the definition of "restricted" or "invested in capital assets".

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed. As of December 31, 2021, the District did not have any unrestricted equity or equity classified as invested in capital assets.

h. Fund Equity (Continued)

Fund Financial Statements

In the fund financial statements, governmental fund equity is classified as fund balance. Fund balance is further classified as follows:

Nonspendable - Amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted - Amounts that can be spent only for a specific purpose because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributions, or the laws or regulations of other governments.

Committed - Amounts that can be used only for specific purposes determined by a formal decision of the District. There was no committed equity as of December 31, 2021.

Assigned - The assigned amounts are designated as committed by the District but are not spendable until a budget is adopted. There was no assigned equity as of December 31, 2021.

Unassigned - All amounts not included in other spendable classifications. The District has not adopted a policy to maintain the general fund's unassigned fund balance above a certain minimum level. There was no unassigned equity as of December 31, 2021.

For classification of Governmental Fund balance, the District considers an expenditure to be made from the most restrictive first when more than one classification is available. The District's fund balance as of December 31, 2021 totaled \$322,240 of which \$307,312 was classified as restricted and \$14,928 was classified as nonspendable as this balance related to prepaid expenses.

i. New Pronouncements

During the year ending December 31, 2021, the District implemented the following GASB Statements:

Statement No. 89, "*Accounting for Interest Cost Incurred before the End of a Construction Period*" establishes accounting requirements for interest cost incurred before the end of a construction period. Such interest cost includes all interest that previously was accounted for in accordance with the requirements of paragraphs 5-22 of Statement No. 62, "*Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*", which are superseded by this Statement. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. The requirements of this Statement are effective for reporting periods beginning after December 15, 2020. This Statement did not affect the District's financial statements.

Statement No. 90, "*Majority Equity Interest*" the primary objectives of this Statement are to improve the consistency and comparability of reporting government's majority equity interest in legally separate organization and to improve the relevance of financial statement information for certain component units. It specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. A majority equity interest that meets the definition of an investment should be measured using the equity method. This Statement establishes that ownership of a majority equity interest in a legally separate organization results in the government being financially accountable for the legally separate organization and, therefore, the government should report that organization as component unit. The requirements of this Statement are effective for reporting period beginning after December 15, 2020. This Statement did not affect the District's financial statements.

Note 1 - NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

i. New Pronouncements (Continued)

Statement No. 91, "*Conduit Debt Obligations*" provides a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. The requirements of this Statement are effective for reporting periods beginning after December 15, 2020. This Statement did not affect the District's financial statements.

Statement No. 98, "*The Annual Comprehensive Financial Report*" establishes the term annual comprehensive financial report and its acronym ACFR. That new term and acronym replace instances of comprehensive annual financial report and its acronym in generally accepted accounting principles for state and local governments. This Statement was developed in response to concerns raised by stakeholders that the common pronunciation of the acronym sounds like a profoundly objectionable racial slur. The requirements of this Statement are effective for fiscal years ending after December 15, 2021. This Statement did not affect the District's financial statements.

The GASB has issued the following Statements which will become effective in future years shown below:

Statement No. 87, "*Leases*" increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this Statement are effective for reporting periods beginning after December 15, 2021. Management has not yet determined the effect of this Statement on the financial statements.

Note 1 - NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

i. New Pronouncements (Continued)

Statement No. 92, "*Omnibus 2020*" establishes accounting and financial reporting requirements for specific issues related to leases, intra-entity transfers of assets, postemployment benefits, government acquisitions, risk financing and insurance related activities of public entity risk pools, fair value measurements, and derivative instruments. The requirements of this Statement apply to all financial statements of all state and local governments at dates varying from upon issuance to fiscal periods beginning after June 15, 2021. Management has not yet determined the effect of this Statement on the financial statements.

Statement No. 93, "*Replacement of Interbank Offered Rates*" some governments have entered into agreements in which variable payments made or received depend on an interbank offered rate (IBOR) most notably, the London Interbank Offered Rate (LIBOR). As a result of global reference rate reform, LIBOR is expected to cease to exist in its current form at the end of 2021, prompting governments to amend or replace financial instruments for the purpose of replacing LIBOR with other reference rates. This Statement will preserve the consistency and comparability of reporting hedging derivative instruments and leases after governments amend or replace agreements to replace an IBOR. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. Management has not yet determined the effect of this Statement on the financial statements.

Statement No. 94, "*Public-Private and Public-Public Partnerships and Availability Payment Arrangements*" improves financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). As used in this Statement, a PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. Some PPPs meet the definition of a service concession arrangement (SCA), which the Board defines in this Statement as a PPP in which (1) the operator collects and is compensated by fees from third parties; (2) the transferor determines or has the ability to modify or approve which services the operator is required to provide, to whom the operator is required to provide the services, and the prices or rates that can be charged for the services; and (3) the transferor is entitled to significant residual interest in the service utility of the underlying PPP asset at the end of the

i. New Pronouncements (Continued)

arrangements. This Statement also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). As defined in this Statement, an APA is an arrangement in which a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset for a period of time in an exchange or exchange-like transaction. The requirements of this Statement are effective for the years beginning after June 15, 2022. Management has yet to determine the effect of this Statement on the financial statements.

Statement No. 96, "*Subscription-based Information Technology Arrangements*" provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset - an intangible asset - and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. The requirements of this Statement are effective for the years beginning after June 15, 2022. Management has not yet determined the effect of this Statement on the financial statements.

Statement No. 97, "*Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans - an Amendment of GASB Statements No. 14 and No. 84, and a Supersession of GASB Statement No. 32*" provides objectives to (1) increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform; (2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution and other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements; and (3) enhance the relevance, consistency, and comparability of the accounting and financial reporting plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans. The requirements of this Statement are effective for the years beginning after June 15, 2021. Management has not yet determined the effect of this Statement on the financial statements.

Note 1 - NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

j. Reconciliations of Government-Wide and Fund Financial Statements

There are no differences between the government-wide and fund financial statements.

k. Subsequent Events

The District evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through June 15, 2022, which is the date the financial statements were available to be issued.

Note 2 - DEPOSITS

Louisiana state law allows all political subdivisions to invest excess funds in obligations of the United States, or any other federally insured investment, certificates of deposit of any bank domiciled or having a branch office in the State of Louisiana, guaranteed investment contracts and investment grade (A-1/P-2) commercial paper of domestic corporations.

Bank Deposits

State law requires deposits (cash) of all political subdivisions to be fully collateralized at all times. Acceptable collateralization includes FDIC insurance and securities purchased and pledged to the political subdivision. Obligations of the United States, the State of Louisiana, and certain political subdivisions are allowed as security for deposits. Obligations furnished as security must be held by the political subdivision or with an unaffiliated bank or with a trust company for the account of the political subdivision.

A summary of cash and cash equivalents as of December 31, 2021 is presented below. As of December 31, 2021, the carrying amount of the District's cash and cash equivalents totaled \$741,053, and the bank balances totaled \$859,915. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

Note 2 - DEPOSITS (Continued)

Bank Deposits (Continued)

The bank balance as of December 31, 2021 is as follows:

	<u>Bank Balance</u>	<u>Reported Amount</u>
Cash	<u>\$ 859,915</u>	<u>\$ 741,053</u>

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District has a written policy for custodial credit risk. As of December 31, 2021, \$609,915 of the District's bank balances of \$859,915 was exposed to custodial credit risk because it was uninsured and collateralized with securities held by the pledging institution's trust department or agent, but not in the entity's name.

As of December 31, 2021, bank balances were adequately collateralized in accordance with state law by securities held by unaffiliated banks for the account of the District. The GASB considers these securities subject to custodial credit risk. Even though the pledged securities are considered subject to custodial credit risk under the provisions of GASB Statement No. 40, L.R.S. 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within ten days of being notified by the depositor that the fiscal agent has failed to pay deposited funds upon demand.

Note 3 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budget

In accordance with the Louisiana Local Government Budget Act, the procedures used by the District in establishing the budgetary data reflected in the financial statements include public notices of the proposed budget, public inspections and public hearings. The District then legally adopts the budget. Budgeted amounts for the general fund included in the accompanying statements are as amended by the District for the year 2021.

The budget is prepared on the cash basis of accounting. The legally prescribed budgetary basis differs materially from generally accepted accounting principles.

Note 4 - LITIGATION AND CLAIMS

As of December 31, 2021, the District was not involved in litigation nor is the District aware of any unasserted claims.

Note 5 - RECEIVABLES

The receivables as of December 31, 2021 are as follows:

Intergovernmental	\$2,152
Less: allowance for uncollectible accounts	<u> -</u>
	<u><u> \$2,152</u></u>

There were no receivable balances past due in excess of 90 days as of December 31, 2021.

Note 6 - DUE TO LOCAL GOVERNMENT

The due to local government balance totaled \$433,265 as of December 31, 2021. This amount represents funds mainly due to the City of New Orleans - NOPD related to reimbursements for crime prevention and patrol services in the Mid-City area.

**NOTE TO REQUIRED SUPPLEMENTARY
INFORMATION - BUDGETARY REPORTING**

Mid-City Security District
New Orleans, Louisiana

For the year ended December 31, 2021

The District adheres to the following procedures in establishing the budgetary data reflected in the financial statements.

Budgetary Information

As required by the L.R.S. 39:1301-1315, the District adopted a budget for its General Fund for the year ended December 31, 2021 and it was made available for public inspection on July 8, 2020. The proposed budget was prepared on the cash basis of accounting, and was published in the official journal on July 8, 2020. The budget hearing was held on July 11, 2020. The budget was legally adopted, as necessary, by the District. The budget for the year ended December 31, 2021 was not amended in 2021. All appropriations lapse at year end.

Formal budget integration (within the accounting records) is employed as a management control device. Budget amounts included in the accompanying financial statements include the original adopted budget.

The General Fund budget is adopted on a cash basis that is not materially consistent with accounting principles generally accepted in the United States of America.

SPECIAL REPORTS OF CERTIFIED PUBLIC ACCOUNTANTS

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Board of Commissioners,
Mid-City Security District,
New Orleans, Louisiana.

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the major funds of the Mid-City Security District (the "District") as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated June 15, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weakness may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance. Accordingly, this communication is not suitable for any other purpose.

STATEWIDE AGREED-UPON PROCEDURES

INDEPENDENT ACCOUNTANT'S REPORT ON
APPLYING AGREED-UPON PROCEDURES

To the Board of Commissioners,
Mid-City Security District,
New Orleans, Louisiana.

We have performed the procedures described in Schedule 4 on the control and compliance (C/C) areas identified in the Louisiana Legislative Auditor's (LLA) Statewide Agreed-Upon Procedures (SAUP) for the fiscal period January 1, 2021 through December 31, 2021. Mid-City Security District's (the "District") management is responsible for those C/C areas identified in the SAUPs.

The District has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of the engagement, which is to perform specified procedures on the C/C areas identified in the LLA's SAUPs for the fiscal period January 1, 2021 through December 31, 2021. Additionally, LLA has agreed to and acknowledged that the procedures performed are appropriate for its purpose. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and associated findings are described in Schedule 4.

We were engaged by the District to perform this agreed-upon procedures engagement and conducted our engagement in accordance with the attestation standards established by the American Institute of Certified Public Accountants and applicable standards of *Government Auditing Standards*. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on these C/C areas identified in the SAUPs. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.

This report is intended solely to describe the scope of testing performed on those C/C areas identified in the SAUPs, and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the LLA as a public document.

Performance: Obtained a listing of individuals involved in processing and approving payments to vendors. Observed at least two individuals are involved.
Exceptions: There were no exceptions noted.

c) The individuals responsible for processing payments are prohibited from adding/modifying vendor files, unless another individual is responsible for periodically reviewing changes to vendor files.
Performance: Obtained a listing of individuals involved in processing payments to vendors and observed that the individuals responsible for processing payments are not adding/modifying vendor files. Observed that another individual is responsible for periodically reviewing changes to vendor files.
Exceptions: There were no exceptions noted.

d) The individual responsible for signing checks mails the payment or gives the signed checks to an individual to mail who is not responsible for processing payments.
Performance: Obtained a listing of individuals involved with signing and mailing checks and verified they are not involved in the processing of payments.
Exceptions: There were no exceptions noted.

10. For each location selected under #8 above, obtain the District's non-payroll disbursement transaction population (excluding cards and travel reimbursements) and obtain management's representation that the population is complete. Randomly select 5 disbursements for each location, obtain supporting documentation for each transaction and:
Performance: Obtained the District's non-payroll disbursement transaction population, and received management's representation in a separate letter that the population is complete. Selected 5 disbursements from the sole location that processes payments for testing.
Exceptions: There were no exceptions noted.

a) Observe whether the disbursement matched the related original invoice and supporting documentation indicates deliverables included on the invoice were received by the District.
Performance: Observed that the 5 disbursements matched the related original invoice and supporting documentation indicated deliverables included on the invoice were received by the District.
Exceptions: There were no exceptions noted.

b) Observe whether the disbursement documentation included evidence (e.g., initial/date, electronic logging) of segregation of duties tested under #9, as applicable.
Performance: Observed that the 5 disbursements included evidence of segregation of duties.
Exceptions: There were no exceptions noted.

Procedures Performed on the District's Credit Cards, Debit Cards, Fuel Cards, P-Cards:

11. Obtain from management a listing of all active credit cards, bank debit cards, fuel cards, and P-cards (cards) for the fiscal period, including the card numbers and the names of the persons who maintained possession of the cards. Obtain management's representation that the listing is complete.

Not applicable. The District does not have a credit card.

12. Using the listing prepared by management, randomly select 5 cards (or all cards if less than 5) that were used during the fiscal period. Randomly select one monthly statement or combined statement for each card (for a debit card, select one monthly bank statement), obtain supporting documentation, and:

- a) Observe whether there is evidence that the monthly statement or combined statement and supporting documentation (e.g., original receipts for credit/debit card purchases, exception reports for excessive fuel card usage) was reviewed and approved, in writing, by someone other than the authorized card holder.

Not applicable. The District does not have a credit card.

- b) Observe that finance charges and/or late fees were not assessed on the selected statements.

Not applicable. The District does not have a credit card.

13. Using the monthly statements or combined statements selected under #12 above, excluding fuel cards, select 10 transactions (or all transactions if less than 10) from each statement, and obtain supporting documentation for the transactions (i.e., each card should have 10 transactions subject to testing).

- a) For each transaction, report whether the transaction is supported by:

- 1) An original itemized receipt that identifies precisely what was purchased.

Not applicable. The District does not have a credit card.

- 2) Written documentation of the business/public purpose.

Not applicable. The District does not have a credit card.

- 3) Documentation of the individuals participating in meals (for meal charges only).

Not applicable. The District does not have a credit card.

Procedures Performed on the District's Travel and Travel-Related Expense Reimbursements:

14. Obtain from management a listing of all travel and related expense reimbursements during the fiscal period and management's representation that the listing or general ledger is complete.
